

# ZERO HOUR CONTRACT WORKERS: NHS ENGLAND SAYS: IF YOU ARE WORKING ON NHS PREMISES YOU ARE ENTITLED TO TO SELF-ISOLATE ON FULL PAY

LOCAL MANAGERS SHOULD COMPLY

If another member of your household has any of the symptoms of COVID19 – a new continuous cough or high temperature 37.8 Celsius and above; then all household members must stay at home and not leave the house for **14 days**.

If you develop these symptoms stay at home for **7 days**.

More info here: [bit.ly/33BjrFW](https://bit.ly/33BjrFW)

In a letter dated 4.3.20 NHS England instructed NHS bosses to: “Ensure that any member of staff, including bank staff and sub-contractors, who has to be physically present at an NHS facility to carry out their duties, receives full pay for any period in which they are required to self-isolate as a result of public health advice.”

It is important for the safety of all patients and workers that **EVERYONE** has the financial security to follow public health advice. If you are working in NHS premises today and have the above symptoms or someone at home has the above symptoms **tell a union rep and LEAVE IMMEDIATELY**. Regardless of who you work for or what is in your contract: NHS England says you should get full pay. Even if you are not a union member, unions will press your local manager to comply and publicise this guarantee..

Critical workers in the NHS are organising and taking action to ensure we take necessary steps to reduce the risk of infection and keep each other and our patients as safe as possible through the pandemic. We stand in solidarity with all critical workers that are working through the shutdown. Together we can take action for safer workplaces.
